Vessel History

BSC October 2021
Maintenance: Antifouled 2017

Recent Survey: n/a

Mooring Available: Yes (subject to availability)

Additional Information

Rear cover

Please note:

No guarantee is given or implied with regards to specification but descriptions are given in good faith. All vessels are sold without warranty or condition as to the fitness either expressed or implied by status or otherwise. No appliances or systems have been tested. All measurements stated are approximate. These details are not intended to, and do not, form any part of any current or future contract. In this transaction we are acting as Brokers only. All sales subject to contract. We are relying on information supplied solely by the seller and the Company cannot be held responsible or liable if information is proven to be inaccurate. All information is given as a guide. Plating thickness cannot be measured during GHBS visit while the boat is in the water and is based on information supplied by the owner. A prospective buyer is strongly advised to check the particulars and where appropriate at their own expense to employ a qualified insured Marine Surveyor to carry out a survey of the vessel. It is ultimately the reasonability of the buyer to ensure that all the particulars are accurate prior or during the purchase of the boat. Great Haywood Boat Sales advises that a qualified independent surveyor carries out a full out of water survey for every vessel.
